How We'll Put the Aunt Bertha Partnership Into Action to Serve Our Patients

1. Jefferson has identified more than 200 support professionals that will pilot organizational accounts on the tool. These Jefferson support professionals include but are not limited to RN Care Coordinators, Behavioral Health Consultants (BHCs), Social Workers, and Community Health Workers (CHWs).
2. Caregivers will continue to send referrals of patients with needs, as always, to our support professionals.
3. Later this year, the resource will be integrated into Epic for our support professionals' easy access and optimal patient care coordination. Eventually, Jefferson plans to provide all caregivers with access to the tool via Epic.
4. Caregivers can also opt to tell patients about the community site and use the site during healthcare appointments to help our patients find resources.
5. In the future, the tool will help document outcomes and impacts of community organization referrals.
