This month's seminar features **Integral Molecular**, a Philadelphia biotechnology research facility and industry leader in membrane protein solutions. Specializing in therapeutic monoclonal antibodies and small molecule drugs. **Learn about different company roles!**

Stick around for a **live Q&A** session at the end!

Tuesday, April 25th, 2023

3:00 – 4:00pm

Virtual Event

Zoom Meeting ID: 840 629 3141

Michael Phelan, PhD, in Bioengineering from Temple University. Quality Assurance Manager for Integral Molecular's MPA service.

Coordinates the use of the MPA's data in IND submissions to the FDA for new biologic drugs while also working to maintain the overall quality of the service. His background is in pluripotent stem cell-derived organoids, bioreactors, and biomaterials

Maya Cabot, PhD, in Biophysics from the University of Virginia. Product Manager for Virology at Integral Molecular.

She has a research background in virology, structural biology and microscopy. Her group collaborates with scientific, marketing and sales teams.
