

Postdoctoral Research Fellow

Dept of Pharmacology, Physiology, and Cancer Biology Dept of
Otolaryngology

Lab of Dr. My Mahoney

The Mahoney laboratory is seeking for a highly motivated postdoctoral fellow who is interested in Extracellular Vesicle (EV) research and their roles in tumor development and progression of skin and head and neck cancers. The postdoc will engineer EVs to target epithelial cells and assess the mechanisms regulating EV uptake and function.

PhD or M.D. required. Applicants must be skilled in the following techniques: cell culture, mouse models, biochemical assays (Western blotting, protein assay, PCR, etc.). Some knowledge in exosome biology is preferred but not required.
