CREATIVE ACTIVITIES AND ENTREPRENEURIALSHIP

Entrepreneurship/Leadership: Small Business Developments:

Founder and Managing Member/Nurse Consultant: Systems of Safety, LLC- Providing health care consultation in falls prevention to healthcare providers and older adult consumers (2009 to present).

Founder and Managing Member/Nurse Consultant: The Fall Prevention Group, LLC- provides consultant on the reduction of recurrent falls to primary care practitioners in NJ and Pennsylvania as a Medicare certified healthcare provider (2009-2018).

Inventions: Electronic Devices, Apps and Practice Models

The Post-Fall Index™ (PFI™): 30 item comprehensive electronic post fall assessment tool developed, validated and pilot tested in several nursing homes to establish psychometric properties, clinical congruency among health care providers. Shown effective in reducing falls by 32% facility wide, and cost-effective compared to standard care. Electronic work created with source code 2006. Inventor/contributors: Gray-Miceli/Strumpf, Ratcliffe, Johnson.

Elder Temp Alert (ETA): a low voltage, battery operated device for detection of temperature extremes and communication with stakeholders. App created September 2017; Inventor/contributors: Gray-Miceli/Zhai, J & Liang, W.

Balance App for Detection of Falls in Older Adults. Balance collection app streams motion data from IMU sensors. App created with source code June 2018; Inventor/contributors: Gray-Miceli & Craelius, W.

Creator of a theoretically derived evidenced-based practice model: "A Stepwise Approach to Comprehensive Post-Fall Assessment of Older Adults". Model tested with graduate students, older adult consumers and healthcare providers. Contributors: Gray-Miceli, Strumpf, Johnson.
